BASE BALL.

President Young, of the National League, has issued the following bulletin: Terms accepted with Baltimore, Hughes; with New Castle, J. Barkley; D. Keating, W. S. Zink; with Wheeling, O. Porter, W. A. Sanders; with Newport, O. O. Porter. Released by St. Louis to Pittsburgh, M. Murphy; by St. Louis to Milwaukee, G. Shoch; Pittsburgh to St. Louis, J. Suggen; Pittsburgh to Cincinnati, E. Smith; E. P. Hawley; Cincinnati to Pittsburgh, J. McCarthy; William Rhines, William McGraw, William Schriver; Brooklyn to Syracuse, James E. Cunningham.

A special from Youngstown says: "Manager Geer, of the Youngstown Base Ball Club of the Interstate League, to-day signed James M. Grove, of Pittsburgh, for the outfield. Grove played for Geer when he was manager of the Johnstown (Pa.) team in 1894. Grove bats left-handed and has the reputation of being a hard hitter. He had offers from Atlantic, Eastern and Western clubs. Three new men are now signed—Grove, Harber and Ross. Each of last season's players has received a contract, but none of them have signed."

Manager Strobel, of Toledo, is making up his team for '98. He says he will have about the same players he had last season with the exception of a new shortstop and second baseman. New Toledo, Youngstown, Dayton and in fact, all the Interstate teams have the prospect for '98. Strobel is not saying a word, but he is signing a man here and there. They will find him fighting for the flag again.

FOOT BALL.

The Madisons took the Ritchies into camp Saturday afternoon, at the latter's grounds in the Eighth ward. The score was 6 to 0. A large crowd witnessed the contest which was stubbornly fought. The first half ended 0-0, with the ball chiefly in Ritchie's territory, but in the second half Prosser was pushed over for Madison, and Kinche-loe kicked the goal. The Madisons have tied the Y. M. C. A. and defeated it 6-0; defeated the Ritchies twice, and tied with Aetnaville Juniors. Some of the eleven give promise of being in Wheeling's first eleven next year.

A GAME FOR CHRISTMAS.

The Wheeling Athletic Club is considering a Christmas Day game here with Bethany college, or Steubenville. The success of Thanksgiving day's venture, and the probability of good weather by Santa Claus, has started the talk. Interest in the game is at fever pitch by Thanksgiving; after that, there is but a little band of enthusiasts who stick to it until frozen out. However, with some systematic booming the Christmas game may prove a big success.

Yeager Is Captain.

At a meeting of the West Virginia University foot ball players, Saturday, Lewis A. Yeager was elected captain of the University team for next season. The selection is a popular one with the students. Yeager entered the university three years ago from Pocahontas county, and was very green as a material in the foot ball business, but he is now ranked as the star full back in this state.

DUMONT'S REPORT.

The report of the supervising inspector general Dumont, is just out, and it contains many things of interest to steamboatmen. One of the most noticeable recommendations which he makes to Congress is that the number of supervising inspectors be reduced from ten to five. He thinks one supervising inspector is sufficient for all the western rivers, and he would merge into one office the work now done at Dubuque, St. Louis, Memphis, New Orleans and Cincinnati, and save thereby, in salaries alone, the sum of \$15,000 a year. The recommendations would doubtless have the support of the steamboat men, says the Cincinnati Commercial Tribune, but it is not likely that the politicians will favor the plan. The office of supervising inspector is worth \$3,000 a year, with liberal expenses.

Along the Landing.

The Fred Wilson and empties passed up at 7 a. m. Sunday.

The marks at 6 p. m. showed 7 feet 9 inches and stationary. Weather, colder and cloudy.

The steamer Will J. Cummins will leave Wheeling next Saturday and every Saturday while river will permit for Cincinnati and intermediate points. T. A. Morris & Co., agents, 1114 Water street.

The Register says the survey being made of the Wheeling harbor by Engineer McGrew of Major Bixby's office, has as its object the "repair of wharves above." Such ignorance is truly amazing. To begin with, there is no wharves to a point ten miles above, and the national government is not engaged in either constructing or repairing wharves. For the benefit of the Register, it can be said that the survey is made in order to fix certain lines beyond which manufacturing establishments shall not encroach in billing in with slag and other waste products. The Register adds that it exclusively stated the object of this work "some time ago." The Intelligence, as a matter of fact, did exclusively give the whole story some three years ago when Major Stickney and a party of government engineers were here and took a trip over the harbor on the Liberty.

The Register "catches on" just about "three years after date."

Ayer's Cherry Pectoral Cures Coughs

"My wife was suffering from a dreadful cough. We did not expect that she would long survive, but Mr. R. V. Royal, deputy surveyor, happened to be stopping with us over night and having a bottle of Ayer's Cherry Pectoral with him, induced my wife to try this remedy. The result was so beneficial that she kept on taking it till she was cured."
